V. TRANSFAMILY SUPPORT SERVICES PRESENTATION	<p>Kathie and Evan from TransFamily Support Services introduced the organization, which was founded over a decade ago to support transgender and gender diverse youth and their families. They discussed the challenges faced by the trans community in the past, including lack of medical and school support, and how TransFamily has grown to serve over 6,000 individuals nationwide. They outlined the goals for the training, emphasizing the intent to provide tools for inclusion rather than change beliefs.</p> <p>Evan expanded on the use of inclusive language, explaining terms like "TGI" (transgender, gender diverse, and intersex) and the importance of recognizing the land and communities we occupy. They emphasized the training is about addressing biases that impact how we treat others, not changing personal beliefs.</p> <p>The presenters noted the meeting was being recorded and asked for the recording to be stopped.
