Natalie Boehm

The Defeating Epilepsy Foundation President and founder, Natalie Boehm, is a strategic consultant and disability advocate who has lived with epilepsy for 46 years. She advocates for improved education, economic opportunities, and quality-of-life resources for people living with epilepsy.

Reuben Gonzales

Reuben Gonzales was born and raised in the city of Banning. He graduated with his Bachelor's degree in Marketing and started his first business in 2017 called Crayvingz, which was a website he built for residents to place their food orders, which his drivers then delivered to their homes. Reuben expanded his business into 5 cities. His passion for local businesses became clear, so he became the Executive Director for the Banning Chamber of Commerce in 2021. Shortly after, Reuben was installed and elected to serve on the Banning City Council in 2022, where he continued to create positive change in the city of Banning and the pass area.
