

Geographic Inequities, Coachella Valley and Mid Regions had the Highest Percentage of Preterm Births (2021-2025)

Percentage of Preterm Births by Zip Code in Riverside County (2021-2025)

Preterm Births (%)

Source: California Integrated Vital Records System (Cal-IVRS). California Comprehensive Birth File (CCBF). [2020-2023 data extracted 12/20/2024, 2024 data extracted on 08/29/25, 2025 data extracted on 02/05/2026].

Notes: Preterm birth is the birth of a baby before 37 weeks of gestation. 2025 data are preliminary and subject to change.

E-bike Injury ED Visits were More Common among 10-14 Year Olds in 2025, Riverside County

Source: CDC.(April 2026). ESSENCE: Electronic Surveillance System for the Early Notification of Community-based Epidemics. National Syndromic Surveillance Program, Centers for Disease Control and Prevention. Riverside County, CA.

Notes: ED visit counts are considered preliminary. ICD-10 codes for e-bikes did not come into effect until 2022, any record identified before this time period solely depends on the mention of e-bike as a cause of injury.

Emergency Department (ED) Visits for Non-Traumatic Dental Conditions

Source: California Department of Health Care Access and Information (HCAI) Emergency Department visit data, 2020-2023

Notes: HCAI emergency department visits are reported for non-traumatic dental conditions by age and race/ethnicity. Rates are crude rates per 100,000 population and are based on ICD codes.
