PERRIS FAMILY ROOM CLINIC

PERRIS FAMILY ROOM CLINIC

"Family Room" is a **new service method** that focuses on the individual's strength, unique abilities, wellness, and self-responsibility and engages **FAMILY MEMBERS** and any **PERSON OF SUPPORT**. We have found that mental health crises are frequently traumatic and painful experiences. This is true for the individual and the entire family. Therefore, the recovery process is more effective when it includes not only the person who carries a diagnosis but also family members, supportive individuals, and service providers. This is also known as **PARTNERSHIP**.

FAMILY ROOM CLINIC

DEFINITION OF RECOVERY

Recovery is a process of self-discovery, self-renewal, transformation, and returning what was lost: hopes, dreams, expectations, etc. The outcome can be the emergence of a new sense of self with a new life purpose.

PERRIS FAMILY ROOM CLINIC CORE VALUES

The mission of the Perris Family Room Clinic is to convey importance to all those who come to seek help so that any encounter can become an opportunity to provide services that are delivered with integrity, simplicity, and a passion for excellence or exceeding clients' expectations. The enthusiasm for such services is expressed through the Perris Family Room Clinic Core Values known as "PRIDE."

Passionate:

A genuine enthusiasm for what we do.

Responsive:

Taking responsibility for making things happen.

Individual:

Bringing our whole self to work.

Driven:

A relentless desire to "WOW" others.

Engaging:

Give our full attention to our clients.
