

HIV Pathway

- *The HIV Pathway is a specialized pathway designed for physicians who intend to focus their practices on the treatment of persons with HIV infection and/or on communities in which HIV is prevalent.*
- *You will have the opportunity to have continuity clinics throughout residency with HIV positive patients and participate in journal clubs, didactics, local meetings, and webinars focused on HIV care.*
 - *After passing an examination towards the end of your residency, you will be credentialed by the American Academy of HIV Medicine as an HIV Specialist.*
