

Riverside University Health System- PUBLIC HEALTH Novel Coronavirus (2019-nCoV) Triage Flow Chart For Educational Settings

Signs and Symptoms and Epidemiologic Risk Factors

- Fever > 38 C or 100.4 F and any of the following:
- Cough
- Difficulty Breathing

AND one or more of the following epidemiologic risk factors within the past 14 days before the onset of symptoms

- Residence in or travel to Wuhan, China, or an area where 2019-nCoV transmission is active. (See CDC link below for areas)
- Close contact with a person with or suspected to have 2019-nCoV.

Immediately:

- Place the student in a separate room with the door closed. Limit the number of individuals interacting with the person.
- Notify Disease Control at (951) 358-5107 - After Hours at (951) 782-2974, request to speak with the Public Health Duty Officer.
- Call the parents/guardians of students ≤ 17 years old, and asked them to pick up the student and take him/her for medical evaluation.
- Place symptomatic students residing on campus housing with roommates in separate living quarters.
- Send symptomatic adult students and staff home and instruct them to contact their healthcare provider.
- Log names and contact information of everyone who has come into contact with the person (e.g., school nurse, health technician, roommate).

Note: Clearance by the person's healthcare provider and by the Department of Public Health is required prior to the person returning to the campus.
